Electro-Media ReadyRoom™

Electro-Media ReadyRoom™ is an intentionally designed event space with both the virtual and the in-person attendee experience in mind.

Imagine a hybrid event where remote attendees' experience is much more welcoming and enjoyable.

Imagine pristine audio, immersive video, and a simple user interface, ready to use with any web conferencing software.

Imagine *Electro-Media ReadyRoom™!*

- Customized design to fit your space
- Eliminates distractions by pairing the right technologies with the right room type
- Room acoustics and lighting are considered to optimize the meeting experience
- Provides excellent experience for both in person and remote participants
- Accommodates any web-based conferencing and collaboration solution
- Utilizes trusted technology to provide an immersive audiovisual experience
- Simple to operate; easy to manage through AVaStar

Electro-Media Design's
Five Tenets of Quality

Reliable, Flexible, Easy to Use,
High Performance & Cost Effective
